Iran's AI index report 2024 was unveiled

Iran AI Index 2024 was compiled in cooperation with the Sharif Artificial Intelligence Strategy and Transformation Center and the Policy Laboratory of the Faculty of Management and Economics of Sharif University of Technology and with the support of the Digital Economy Headquarters of the Scientific Vice-Chancellor.

The first electronic contract of Innovation Fund was signed

The Innovation and Prosperity Fund signed the first electronic contract with a knowledge-based company with the aim of speeding up applications and reducing the amount of face-to-face visits.

This fund concluded its first electronic contract with the knowledge-based company "Karkia Aban Yeganeh Terang". The purpose of this contract is to remove administrative bureaucracies and paperwork, to leave the traditional mode and move towards online work, to reduce the amount of face-to-face visits, especially for people far from the center, to speed up requests and, as a result, to save people's time.

Wallex became Digikala's Black Friday sponsor

Digikala, Iran's largest online store, has started a special collaboration with Wallex Exchange in its Black Friday campaign this year. This campaign, which will be held from November 24th to 30th, in addition to attractive discounts, also includes a special prize for users: a full bitcoin worth approximately \$134,000.

Khanoumi is launching the industry's first dedicated SCF

According to Khanoumi Business, the 47th MITM quarterly conference was held November 24, at the Industrial Management Organization's amphitheater. In this conference, a panel titled "Pioneer in the future of online sales in the era of e-commerce 2" was held with the presence of Sara Mirsalari, co-founder and strategy manager of Khanoumi's online store.

Divar's complaint against the person who published 41,000 duplicate ads

Divar published a statement and announced that the unauthorized actions of this user, which took place between February 2023 and April 2024, were against the rules of using Divar and caused about \$33,000 of damage to the users of this platform.

Divar's statement says: "Following the user's report and contact with Divar's support to protest the publication of a large number of duplicate ads in the "Home and Kitchen" category, we realized that this user's actions led to disruption in the list of ads in this category and reduced efficiency. Ads by thousands of users have been posted. These measures also reduced the chances of success for buyer users to see and trade with other ads in this category."

Blubank activated the proxy account for the purchase of imported cars for its users

Saman's Blubank recently activated the possibility of opening a proxy account for the purchase of imported cars in the form of a proxy box product. Blu account holders can open a proxy box by entering the box section on the main page of Saman's Blubank application.

Blu has provided this box as a special option to its users so that they can easily participate in the lottery to buy imported cars through this bank.

To buy imported cars, you need to have an account in one of the banks where you can temporarily block the amount of 10,000 dollars so that the lottery system of imported cars can access it.

When entering the lottery registration site for buying an imported car, people need to declare the account number whose proxy account has been activated. Saman's Blubank customers can enter their account number in the system after creating a proxy box in the Blu application. Saman's Blubank does not charge its users for activating the proxy box.
