AI has been added to the free resume maker "e-Estekhdam"

According to the public relations report of e-Estekhdam, this company has unveiled a resume maker based on AI for the first time in Iran. This smart tool helps users to create standard and professional resumes to enter the job market.

according to the public relations announcement of this collection, AI allows users to present impressive and distinctive resumes by suggesting skills needed based on each person's expertise and detailed and attractive writing to describe career records.

e-Estekhdam Public Relations has emphasized that this tool is designed to improve the job search and hiring process, and users can adjust their records and skills through this resume maker in such a way as to attract the attention of human resources experts.

NEWS REVIEW

Blubank reached 10 million users 25 loan repayments in the last two and a half years

Blubank announced that it has reached 10 million users and the managers of this neobank stated that they have paid \$480M loans to their customers with a default rate of three tenths of a percent over the past 2 and a half years.

Reza Heydari, the CEO of Blubank, said at the celebration of 10 million users of this neobank that we were able to save 18 million hours of our customers' time by providing banking services online, which is equal to 2055 years. He stated that the average age of Bluebank customers is 33 years and 10 months.

In another part of this ceremony, Amir Farshchi, the deputy CEO of Blubank, said that for the first time in Blubank, the account top-up service from any source has been offered. According to him, nearly 2 million customers have had 31 million successful transactions.

In another part of his speech, Farshchi said: "With the data we had, we realized that people use different accounts to manage their finances, and that's why we designed the service box."

The deputy CEO of Blue said that in the last two and a half years, they have paid \$480M loans to their customers with a default rate of 30%.
